

Let's do intros because I want to get to know each one of you and not just your team name.

Why the name _?

What made you decide to join this class?

How did you team up together? Why did you decide to team up together?

What do you think so far about the Discord?

Do you have anything you want me to communicate to the professors?

Do you have any questions about the class today?

Remember to be friendly. You were a college student too once.
