No fear - to find the key
Is quite a simple task, you see!
Of these blocks, you'll see it's true
Ten letters let the light shine through.

Nothing ventured,
no one gains

Puzzle 4

An ice sculptor was in the middle of working on his largest project yet when he realized he had made a grave mistake. Being the perfectionist that he is, he decides he has no choice but to melt the whole thing and start over again. He knows that 1 cup of boiling water can melt 500 grams of ice. Given that the man is 5ft tall, what is the minimum number of cups of water he needs to melt the sculpture?
