

*Please follow the instructions to
determine your ticket type*

- 1. Begin in a standing position with both arms at your sides, facing north.*
- 2. If your invitation contains the word "event", rotate your head 90 degrees to the left.*
- 3. If you paid for your ticket with cash, move your left arm 90 degrees forwards. If you paid with credit, move your right arm 90 degrees forwards. Otherwise, move both arms 90 degrees forwards.*
- 4. If the area of the ball was established after 1800, bend your left elbow and raise your forearm by 45 degrees. If not, bend your right elbow by 45 degrees.*
- 5. If you are mortal, turn your whole body 180 degrees counterclockwise.*
- 6. If you were invited by the Summer Court, move your right arm 45 degrees downwards.*
- 7. If the sun sets after 6pm local time, rotate your left arm 90 degrees left. If the sun sets before 6pm local time, rotate your left arm 45 degrees right. Next time you see a sunset, ponder its beauty.*
- 8. If the Rosa Multiflora is a native species of the area, squat.*

9. *If the number of the current month is even, put your right hand on your hip; if odd, rotate your right arm 90 degrees to the left.*
10. *If there are 15 naturally found anuran species within the area, lean 45 degrees to the left, and then return to straight.*
11. *On an island where everyone is either a truth-teller or a liar, you are talking to Amaryllis and Begonia. Amaryllis says "Begonia and I are both liars." If Begonia is a liar, do jazz hands. Otherwise, return your right hand to its starting position.*

La Belle Dame Sans Merci

12. *[4.3.3, 38.2.6, 21.7.2, 43.4.1, 21.7.2, 30.8.4, 18.4.2, 15.2.3, 18.4.2, 30.8.4, 21.7.2, 2.3.6, 22.1.3, 30.8.4, 41.8.1, 4.3.3, 30.8.4, 30.8.4, 32.2.4, 16.5.3, 30.8.4, 24.2.1, 21.7.2]*

13. Start with a pen and paper. Draw a straight line two inches long, and then rotate your paper by 77 degrees clockwise. Draw straight ahead for another two inches. Repeat this process until you reach your starting point. The resulting shape is beautiful, is it not? If the shape has seven points, turn 90 degrees clockwise; If the shape has nine points, raise your right arm by 180 degrees.

14. How many portions of red out of 255 are present in Burlywood? If 222, turn 270 degrees clockwise. If 195, turn 90 degrees clockwise. If 27, face east.

15. If the following nonogram is representing a common compass where the top of the image is north, face the direction that the solution is pointing to.

			1		
			1		
	1	3	1	1	1

16. If Magenta isn't present on the light spectrum, bend your right elbow and put your right hand on your head.

Now, like brush strokes on a paper, let your body tell you your assignment...

Vulpine

Bovine

Canine

Feline

Ursine

Porcine

Equine

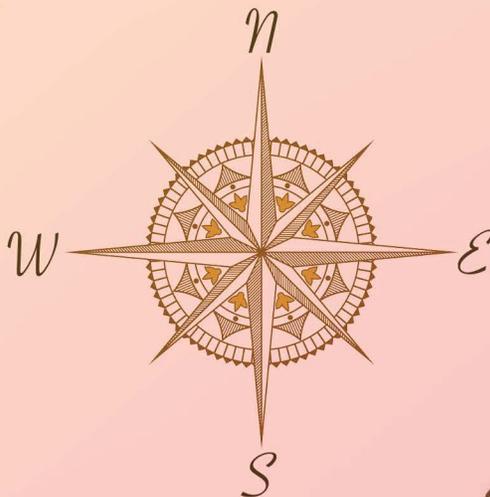

Ratlike

Reptilian

Minxlike

Compare your rotation to the compass:

If North: First If South: Third

If East: Second If West: Fourth

*Note: If your head is at all rotated,
your ticket tier is Void*
